## GO GET 'EM. IT CAN KEEP UP.

### Extraordinary performance and features. Completely underwhelming price.

The ThinkPad R60 can handle the rigors of use in the office and on the road. It features a magnesium alloy<sup>2</sup> roll cage and shock-mounted hard drives to help reduce some system failures and help increase durability. Add high-speed processors and an advanced graphics solution from Intel or ATI, and you get a notebook fully equipped to grow your business, not your overhead.

ThinkPad R60 notebooks are now products of Lenovo, a new global company incorporating the former IBM PC Division. Our mission is to bring more innovation to more people so they can do more amazing things. Find out more at [lenovo.com](http://lenovo.com).
